

Massa Carrara - Italy

Cernusco sul Naviglio - Milan (Italy)

Housing: in extruded aluminium, cylindrical section.

Cap: made of die-cast aluminium.

Painting: in several stages. First stage: epoxy cationic electrocoating, resistant to corrosive and saline environments. Second stage: UV-stabilising primer, and final stage rough finish with graphite acrylic coating(it has passed the UNI ISO 9227 1000 hr test).

Electric gear: 230V/50 Hz power supply. Hard wire 0.50 sqmm cross-section (FLC) and PVC-HT sheath, or silicone wire terminated with quick connect clamps in admiralty brass, with fibreglass braid, 1.0 sqmm cross-section. 2P+T terminal block with maximum allowed lead cross-section of 4 sqmm.

Standard supply: with steel flange to be embedded in the ground with power cable passing through the lower part. Support in die-cast aluminium for wall mounting. Electric gear on removable tray for easy maintenance.

SAP-E 70: supplied with lamps with built-in igniter.

Flange to be embedded in the ground with power cable passing through the lower part. Support in die-cast aluminium for wall mounting. Electric gear on removable tray for easy maintenance.
